## Corsican Chant

Ensemble Organum, Marcel Pérès

1h58 1 CD HM08901495 November 2019

In this pioneering disc first released in 1994, Marcel Pérès and his group of singers reveal the rich heritage of the authentic repertoires of Corsican sacred chant, no longer sung in churches and saved only by oral tradition and musical detective work. The fascinating result provides an insight into the interpretation of the whole range of popular sacred polyphony in the Mediterranean region.
