THIERRY PÉCOU

Symphonie du jaguar / Vague de pierre

Ensemble Zellig, François-Xavier Roth & Jonathan Stockhammer

1h10 Digital HMC905267 January 2010

An irresistible energy irradiates the entire sound material of Thierry Pécou's orchestral music, right down to the silences. This almost spiritual celebration of rhythm is extremely rare in contemporary composers. Impelled by their rhythmic drive, the **Symphonie du Jaguar** and **Vague de pierre** explore the mysteries of the pre-Columbian mythologies of Maya Mexico and the literary painters of ancient China.
