Anthology

« Offering of Polyphonic Chansons »

Fretwork

1h16 1 CD HMG507291 September 2008

The year 1501 saw the issue of the very first polyphonic score ever printed, the *Harmonice Musices Odhecaton* ['offering in 100 songs']. This anthology permitted the diffusion of the works of the most famous European composers of the second half of the 15th century. It was the Venetian Petrucci who guided this vast undertaking: more an entrepreneur than a musician, he himself invented the ingenious system which made it possible to print the collection. This title was released for the first time in 2008.

Artists Composers
