ASTOR PIAZZOLLA

## Piazzolla & Beyond

London Concertante

••• 0h52 Digital HMU907491 November 2009

More than any other composer since J.S. Bach, Astor Piazzolla achieved the ultimate synthesis of the musical influences acting upon him – from Bach to jazz to classical music of his contemporaries – while remaining true to his Argentine roots. In this dazzling programme, London Concertante goes “beyond” Piazzolla classics and introduces four newly written works by David Gordon and Adam Summerhayes that pay homage to the master.
