# 100 years of American Music 1770-1870

Joel Frederiksen, Ensemble Phoenix Munich

1h11 Digital HMC902085 May 2011

'This program is like an American quilt – the individual parts are unique and very different from one another, but it comes together to form one rich tapestry. I would like to give our audience a picture of some of the rich traditions that developed out of our European heritage, but flourished and grew in their own unique way in the New World.'
