DMITRI SHOSTAKOVICH

Complete Preludes & Fugues

Alexander Melnikov

2h19 Digital HMC972019.20 May 2010

These twenty-four preludes and fugues have become so closely associated with the personality and playing style of their 'official interpreter' (Tatiana Nikolaeva) that history has ended up deciding that 'that's the way to perform them' without looking any more deeply into the matter. Yet this op.87 is brimming with fascinating answers for anyone who takes the trouble to ask the right questions; and it is not the least merit of Alexander Melnikov to have approached the work from first principles and come up with his own, eminently musical solutions!
