Renaissance Gems & their Reflections Volume 3

ORA Singers, Suzi Digby

1h14 1 CD HMM905341 March 2022

Spanish composers of the sixteenth century followed a long tradition of writing music in honour of the Virgin Mary. The composer Tomás Luis de Victoria, a priest and a scholar too, wrote multiple settings of devotion to Mary of which this collection showcases some real gems. The album sees us continue our series of great renaissance masterworks being reflected by some of the finest choral composers of our present day, all of whom respond in their own unique way to these extraordinary Marian texts.
