ANTONIO VIVALDI

## Cellokonzerte

Ensemble Explorations, Roel Dieltiens

In the early eighteenth century, 'Vivaldi fever' spread from Venice across the whole of Europe. Vivaldi began the fashion for concertos in which one or more instrumentalists appeared as soloists in front of the orchestra; like singers at the opera. The way Vivaldi bewitched his audience when himself played the violin has come down the centuries and continues to enchant today's listeners.
